

Raja Rogers Meeting Notes
February 6, 2007

Raja Rogers	<p>30 people are to be initiated as part of a grant in Atlanta. More details will be forthcoming. I would like to play a brief talk Maharishi gave recently to the Invincible America course. [Talk is played.]</p> <p>Our home is at the end of the sutra, the end of the sutra is the pt, like needle coming to a pt, beyond the pt is the unmanifest. Maharishi emphasized, good rest, pure food, pure water, following the sutra. At the beginning of Inv America course, he said that the course is about rest and flying. If at any time we feel tired, fatigued or some cloudiness, the instruction is to simply lie down and rest. Don't fight it. If do that frequently, go to bed earlier, look at diet. Good atmosphere is important too.</p> <p>Had the opportunity recently to report about our progress on the CBE program. That was very well received. Also mentioned our call Center – very enthusiastically received. 9 am EST to 10 pm EST – phone is answered. Call Center results?</p>
Jane	Stuart and Joan are great heroes in Florida, answering calls for all of South Florida.
Raja Rogers	Yes, always have been wherever they are.
Joe	Have received more calls. Someone saw a negative website. Someone else complained about the price.
Raja Rogers	<p>The great general was teaching Arjuna about all the celestial weapons and how to use them. After the training, Arjuna tried to use them. They wouldn't work. The great general told him, "There has to be dakshina for them to work." Dakshina is a gift, like the fruit, flowers and course fee to learn TM. For our own understanding, the technique isn't going to work until there is dakshina. We don't tell the general public this. In olden days, you lived in an ashram for awhile and if everything was good, then you were initiated. M has high standards. Don't want those who just want a test drive and then drop it. People have noted that the wealthy people often don't start a lot of time. On the other hand, there are those who don't have much and really want to start and they find a way.</p>
Joe	In comparison, ticket to Superbowl – at biggest discount - \$1500
Raja Rogers	Talked with Raja Luis. One time, Maharishi sent him to an out of the way place. He asked, "Why are we going here, an out of a way place?" Maharishi said that there are a few lights there that we need to gather.
Jane	Jeff and Mary Murphy – At one school, the principal wanted to know more about the court case and the ceremony. So Jeff and Mary went over Bill Goldstein's document and did a presentation. Great result - Principal wanted to go on to the next step.
Raja Rogers	Jeff, you've always been really wonderful at organizing and getting things done.

Jeff	Got approval from Lynch foundation for funding for 2 schools. 35 students in the teen mothers school. About 200 students in another school. We asked the person with objections to write them down – this is a suggestion from Bobby Roth. We responded in writing and she said, Let's go forward with the school project. It was a good exercise for us to understand the whole court case and how to address it. It was a misunderstanding about the outcome and what was being judged in the court case.
Raja Rogers	It might be useful to send out the questions and your answers.
Jane	We should check with Bill Goldstein first. He asked that we not send around his document because the people involved in the CBE have been very well trained and the document shouldn't be circulated for legal reasons.
Raja Rogers	<p>So if anyone needs it, you know where to get it. When you are dealing with someone, you give as little info as possible. You don't want to open new doors for people to ask questions. Just answer the question they have asked.</p> <p>You may have noticed how Bevan interjected a phrase during Maharishi's talk that we replayed tonight. It is amazing how attuned he is to Maharishi. Really nice to see the devotion of the disciple (Bevan). Maharishi said one time, the human nervous system is limited. I can only do 100-200 things at once.</p> <p>Jai Guru Dev</p>
